

#01000 3-7/8" Round Coaster Template Instructions:

Any white that is a part of the artwork will become the color of the coaster itself. If you wish to have a bright white we are able to apply white flood coats at an additional charge.

Due to the product process - on any circular/round shape images, or full coverage based artwork - we cannot guarantee centered placement on all pieces.

Any artwork that goes to the edge of the coaster will require a bleed, depending on the artwork. Example: backgrounds, pictures, and non-white flood coats.

Standard image size: 3-1/4" diameter.

Any artwork that goes past this line is considered a "Full Size" image, especially for backgrounds with a bleed.

Full size image: 3-3/4" diameter - Beveled Edge.

Any artwork that goes past this line will be in the bleed area, and will not show up on the coaster. Certain types of artwork will require a bleed.

Bleed size: 1/2" past edge of the coaster, recommended.
